

SOFiE Seculine - Certificate renewal

U IT is a Luxembourgish RegTech company specialized in Legal Reporting and also Seculine. Since 2010, we supported more than 370 customers including 45 banks. Helped by this strong expertise, we provide with a quality and guaranteed service.

This present offer covers the delicate operation of renewing the Luxtrust certificates.

The tariff of this offer was specifically reduced to answer to the CCSS wish to minimize any cost linked to the Seculine solution.

Context & requirements

The most common needs are :

- The service may not be interrupted more than 1 to several days depending on the affiliate
- The application must remain stable after the renewal operation
- The Seculine data handled by SOFiE must remain accessible only to people in charge

Guarantees

U IT provides the following guarantees :

- **Full handling of the renewal of the certificate and the success of the operation**
- **A maximum of 4h of interruption of the service**
- A specific independent backup of the profile which grants a guarantee to restore it in case of issue
- 1 month of service contract granted after the operation
- **The insurance that the Seculine data remain confidential, including regarding U IT staff**

Tasks performed

- All the technical steps under the SOFiE Business application
- **Act as SPOC for all the paperwork with Luxtrust, the House of Entrepreneurship and Six Payments**
- Synchronize all the participants for the key operation of switching the certificates
- Test & validate the change + apply maintenance (**update SOFiE, clean up profile**)
- Backup the key SOFiE profile files (restore warranty from 1 to 3 years)

Tariff and costs

In order to answer to the CCSS wishes, we reduced the costs of this offer to the maximum. We added the option that U IT handles the payment of the certificate to simplify invoicing to one single invoice for you.

The tariff includes in detail :

- The technical interventions, performed remotely, with guaranteed results
- Handling of the legal (Luxtrust) file
- One month service contract after the operation
- The warranty to restore your SOFiE profile during the lifetime of the certificate
- Optional : payment of the Luxtrust certificate by U IT

Information and temporary decision :

Since March 2018, Luxtrust is not in measure to deliver 3 years validity certificates but only of 1 year.

As consequence, the affiliates must perform this maintenance annually, which lead some small companies or independents to a supplementary yearly cost which can be difficult to accept.

A solution to come back to 3 years validity certificates is being studied, but no date was yet fixed.

Meanwhile, as long as the lifetime of the proposed certificates will remain to 1 year, and in order to minimized a maximum the costs linked to Seculine, U IT will offer a 100€ discount on this present offer. The total invoiced by U IT is narrowed to 300€ to which must be added the cost of the Luxtrust certificate of 97€.
